

NORFOLK

INTERNATIONAL COMMERCE ASSETS

NORFOLK INTERNATIONAL AIRPORT (ORF)

ORF has kept up with the brisk pace of the air cargo industry by housing one of the most efficient air cargo facilities in the state of Virginia. Approximately 60 million pounds of air cargo are presently shipped in and out of the airport. All cargo airlines serving ORF include FedEx, Mountain Air, and United Parcel Service. They are supported by a large network of forwarders and customs brokers specializing in air freight.

IMPORT/EXPORT

The Port of Virginia handles over 81 million tons of cargo, generates \$60 billion of economic activity annually, and provides employment in port related industries for 343,000 Virginians.

FOREIGN TRADE ZONE #20

Virginia is the best choice for FTZ activities due to our strategic mid Atlantic location. Companies locating in FTZ 20 can benefit from advanced distribution networks; easy and reliable access to shipping channels, highways, railways, and airways.

VIRGINIA'S WORLD CLASS INFRASTRUCTURE

SPACE, PORT, DISTRIBUTION, RAIL, ROAD, AIR

NORFOLK INTERNATIONAL TERMINALS EXPANSION

By late 2020, 60 Rail Mounted Gantry Cranes will be in place and \$375 million expansion will be complete. NIT Phase II will be complete in 2030.

THE PORT OF VIRGINIA

From 2015 to 2024, Virginia will have invested nearly \$1.5 billion on its port. Dredging will be complete in early 2025 making Virginia home to the deepest port on the East Coast to serve the world's ultra large container vessels. In 2019, the railyard expansion was completed along with the \$320 Million expansion of Virginia International Gateway VIG doubling the capacity of the existing operation.
